CAREER OBJECTIVE

Motivated Computer Science Engineering student with experience in software development, web application development, database management and AI-based applications. Interested in building scalable backend systems and intelligent recruitment solutions using Python, Java, SQL and modern web technologies.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, JavaScript

Web Technologies: HTML, CSS, React

Backend Technologies: FastAPI, Django, Flask

Databases: SQL, MySQL, PostgreSQL

AI & Machine Learning: Artificial Intelligence, Machine Learning, Natural Language Processing

Cloud & DevOps: AWS, Azure, Docker

Tools & Version Control: Git, GitHub

PROJECTS

SwipeX – AI-Based Recruitment System

- Developed an AI-based recruitment platform that connects job seekers with relevant job opportunities.
- Implemented resume upload and PDF resume parsing using Python.
- Extracted technical skills from resumes using keyword-based NLP techniques.
- Developed an ATS scoring system to evaluate resumes based on technical skills.
- Implemented resume-job compatibility analysis by comparing resume skills with job requirements.
- Developed job recommendation functionality based on resume compatibility.
- Generated personalized suggestions for missing technical skills.
- Built backend APIs using FastAPI.
- Used SQL/SQLite for storing users, jobs, swipes and resume information.
- Developed the frontend using HTML, CSS and JavaScript.
- Used Git and GitHub for version control.

Student Management / Web Application

- Developed a web application using Python and Django.
- Created backend APIs and database operations using SQL.
- Designed responsive interfaces using HTML, CSS and JavaScript.
- Implemented CRUD operations and user authentication.

INTERNSHIP

Software Development Intern

- Worked on software development and web application development.
- Developed backend functionality using Python and Java.
- Worked with SQL databases and REST APIs.
- Used Git and GitHub for source-code management.
- Gained practical experience in debugging, testing and application development.

EDUCATION

Bachelor of Technology – Computer Science Engineering

[College Name] | [University Name] | CGPA: 9.14/10

CERTIFICATIONS

- Java Programming Internship – CodSoft
- Tata Forage Virtual Experience Certificate
- Infosys Internship – SwipeX AI Recruitment System

SOFT SKILLS

Problem Solving • Communication • Teamwork • Adaptability • Time Management

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge.
